Address: **590 Apache Dr., Town, Camden**
Price: **375.00 \$**

This is a brand new General Electric dishwasher. Production date 08/04/19. It never even ran a single load. It was bought from Home Depot 2 weeks ago for \$558 to replace the one in a rental. Unfortunately that rental burned down last weekend and also I lost the receipt. I refuse to that much in store credit so apparently my loss is your gain. Asking price was going to be \$400 firm but some smart one decided to transport it with a tool box against it which caused light scratches. So now it's \$375. That's give you \$25 for appliance paint to restore back to brand new. And that price is FIRM!!
